Address: Nørregade 10, 8700 Horsens, Denmark

Experience

From 07/2023 to 10/2023

Web Developer - Restaurant web site redesign

- Tasked to make a new design of the front-end by modern standards for responsiveness, accessibility, and security.
- Achieving 100 score for accessibility, best practices and SEO and 91 score for performance using Lighthouse analysis tool.
- Including an admin dashboard with features for adding, deleting, and modifying website contents, with searching and filtering possibilities for finding the right content to modify.
- Creating a CI/CD workflow with protected branches that ensures the quality of the code pushed to the main branch with automatic code delivery to the hosting provider.
- Support for language localisation, including German and English language. This feature might still be in development by the time of reading.
- See the website here -> <https://www.stadtweg-restaurant.de/>
